

Darlington's summer offering of Tractors, Implements and Machinery proved a great success and extremely well supported, a huge crowd gathered to witness over 400 lots sell with a fantastic 91% clearance rate to amazingly over 100 buyers. The weather gods were on our side as buyers from Cumbria across to the East Coast and Newcastle down to the Vale of York swapped wet weather gear for sunscreen as a glorious day prevailed.

Top priced lot was an immaculate 51 Plate JCB 520 with a miserly 3000 genuine hours on the clock' the fabulous little telescopic handler attracted huge pre-sale interest and did not disappoint when it sold way beyond expectation for £13700. A very tidy Ford 4610 loader tractor sold well for £5500 whilst an unbelievably clean and tidy New Holland conventional baler impressed when it sold for £3100. As usual the varied sale saw great demand for fencing and building requisites, these sales continue to progress and we look forward to the autumn instalment on October 7th.
